

CONSTRUCTION AUDIT CHECKLIST

Date of Audit: _____

Client/Project/Location: _____

Weather Conditions: _____

of Workers on Site: _____

1. Personal Protective Equipment	7. HAZCOM
Safety Glasses and/or goggles available & being used?	SDS openly available to all employees?
Face shield available for bulk liquid tasks? Grinding?	Flammable liquids are in approved safety cans?
Hand protection used/worn as required?	Flammable liquids storage containers labeled properly?
Foot protection worn as required?	All hazardous containers labeled appropriately
Hearing protection worn where required?	8. Ladder/Stair Safety
Hard hats worn correctly on construction site?	Ladders are safe and inspected as appropriate?
Respirators if required? Type? Training?	Fall protection utilized when ladder is less than 1.5 x from guardrail?
High visibility vest worn?	Stairs or ladder provided for access points >19" high?
2. Electrical Safety	Extension & straight ladders extended 3' beyond landing?
GFCI's used for all portable electrical hand tools?	Stepladders are only used in open position?
Electrical panels are labeled appropriately? Secured?	9. Confined Space
Light bulbs for illumination protected from breakage?	Confined space entry work? Posted?
LO/TO is being used for appropriate tasks?	Retrieval device in place and utilized?
NFPA 70E procedures utilized?	Permit for confined spaces?
Temporary power equipment has no exposed electrical parts?	Fire/rescue notified for confined space entry?
For extension cords: hard usage cord includes three-wire cords marked S, ST, SO, STO, SJ, SJO, SJT, or SJTC	Air monitoring?
Electrical cords inspected & have all prongs intact?	Training in place?
Portable generators are grounded per NEC requirements?	10. Material Handling
Electrical power tools are double insulated or grounded?	Employees operating PITs are trained on the equipment?
3. Compressed Gases	Wire rope used for lifting? Deterioration is absent?
Compressed gas cylinders stored, secured and upright?	Web slings used for lifting? Deterioration is absent?
Oxygen/acetylene torch units have flash back arrestors?	Crane setup and use is consistent with crane use plan? Operator cert?
Compressed gas cylinders not in use have caps in place?	Hooks used for lifting have safety latch in place?
4. Excavation	Storage areas are well maintained?
Excavation-ladders if > 4ft deep? Extend 3ft? 25 ft distance?	Use and practice by workers is ok?
Excavation – protection from cave-ins for > 5ft?	11. Emergency/First Aid
Sloping, shoring evaluated? Is tabulated data available?	Emergency phone numbers posted and known by all?
Daily inspection?	Emergency eyewash units accessible?
5. Hand Tools/Power Tools	First Aid kit available at work site? Worker(s) trained in FA/CPR?
Grinders (portable & stationary) have guards in place?	Fire extinguishers readily available (not blocked)?
Impact style air tools have safety clips/retainers installed?	Fire extinguishers inspected?
Pneumatic power tools have hoses secured?	12. General Safety
Portable circular/table saws equipped with protective guards?	General housekeeping is neat and orderly?
Unsafe hand tools are removed from service?	Wall openings & floor holes are covered or guarded?
Impact tools, hammers kept free of splinters/mushrooms?	Rebar caps used for protruding bars?
6. Other	Concrete work is completed wet or with dust collection system? Silica dust training documented for all?
Permits in place (crane, hot work, lockout/tagout, excavation, delivery truck checklist, confined space entry, fall protection coordination form)?	Scaffolding – guardrails used at 10' or greater?
Tool-box talks conducted and documented?	Competent person on site?
Signs/signals/barricades in place?	Scaffold design by qualified person? Scaffold user training performed?
Training conducted and documented?	Monitoring of personnel and/or atmosphere as required?
JHA available and reviewed with workers?	Other:
Lasers in use (Class 2 or 3A/R only)? – area posted	

Indicate either: S=Satisfactory/Yes U=Unsatisfactory/No N/A=Not applicable

Note: A check in the box to the right of the heading indicates the entire category was satisfactory
